

POORVIJA DHANUSRI D

Frontend Developer | Full-Stack Developer | Software Engineer

Ramanathapuram, Tamil Nadu | poorvija@gmail.com | 9360827631 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

Final-year Computer Science Engineering student (CGPA 8.24) with hands-on experience across four internships and multiple deployed web applications. Skilled in building responsive, accessible interfaces with React.js, JavaScript, and Tailwind CSS, and comfortable working across the stack with Python, Flask, and MongoDB. Focused on writing clean, maintainable code, resolving real build/dependency issues, and shipping production-ready features end to end.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript (ES6+)

Frontend: HTML5, CSS3, React.js, Tailwind CSS, Framer Motion, Responsive Design

Backend & Frameworks: Flask, Django, Node.js (exposure), REST APIs

Databases: MongoDB, MySQL

Tools & Platforms: Git, GitHub, VS Code, Vercel, Render

ML/Data (academic): Pandas, NumPy, Scikit-learn, XGBoost, Random Forest

PROJECTS

Personal Portfolio Website | Live : poorvija-portfolio.vercel.app

React, Tailwind CSS, Framer Motion

- Designed and built a fully responsive portfolio from scratch, featuring glassmorphism UI, dark mode, scroll animations, and a custom circuit-line scroll-progress indicator.
- Diagnosed and resolved a React 19 / lucide-react peer-dependency conflict via a custom .npmrc configuration, unblocking the build pipeline.
- Deployed on Vercel, showcasing 4 internships, 3 live projects, and certifications.

Chennai House Price Prediction System | Live: house-pricepredictor.onrender.com

Python, Pandas, NumPy, Scikit-learn

- Built a regression-based ML model to predict Chennai housing prices using real-world real estate data.
- Engineered features and ran EDA; trained and evaluated a Random Forest Regressor using MAE, RMSE, and R^2 .

Wanderly — Travel Website | GitHub: <https://poorvija06.github.io/wanderly/>

HTML5, CSS3, JavaScript, React.js

- Built a multi-page, responsive travel website UI with React.js, focused on clean navigation and layout consistency.
- Performed targeted bug fixes and maintenance to improve stability without disrupting existing structure.

INTERNSHIP EXPERIENCE

AI Summer Intern | Thiagarajar College of Engineering, Madurai

Jun 2026

- Built the Chennai House Price Prediction System end to end using Python, Pandas, NumPy, and Scikit-learn.
- Ran data preprocessing, feature engineering, and EDA; trained and evaluated a Random Forest Regression model using MAE, RMSE, and R^2 .

Full Stack Developer Intern | NoviTech R&D private Limited, Coimbatore.

Apr 2026 – Present

- Developing a responsive full-stack web application using HTML, CSS, JavaScript, and React.js.
- Gaining hands-on exposure to Node.js and MongoDB for backend data handling.

Web Developer Intern | Svasti Technology, Trichy.

Jul 2024

- Built and deployed Heaven Bite, a responsive pizza shop ordering website, using HTML5, CSS3, and JavaScript.

Web Developer Intern | Scripting Spider (Freelance), Theni

Jul 2024

- Built a responsive website for Focus & Freeze Studio using HTML5, CSS3, and JavaScript.
- Improved site navigation and UI to enhance user experience, and ensured cross-browser compatibility.

EDUCATION

B.E. Computer Science and Engineering | M.A.M. College of Engineering and Technology, Tiruchirappalli

Sep 2023 – May 2027

- CGPA: 8.24

Higher Secondary Education (12th Standard) | Don Bosco Matriculation HSS, Paramakudi, Ramanathapuram

Jun 2022 – Mar 2023

- Percentage: 87%

CERTIFICATIONS & COURSES

NPTEL – Cloud Computing (2025) | Great Learning – Java Programming (2024) | Great Learning – Front End Development (2023) | GUVI – JavaScript (2025) | Simplilearn – React for Beginners (2025)

LEADERSHIP & VOLUNTEERING

- Code Debugging Event Coordinator — College Symposium
- Student Member — Environmental Energy Club and Institution's Innovation Council (IIC)
